Have you ever felt sad or depressed for 2 weeks or more at a time in the past year: Y or N

Do you have concerns regarding your emotional or mental health (ie: anxiety, memory loss, voices, hallucinations, depression, binge eating etc)? :

Informed Consent For Treatment

Welcome to Naturopathic Medicine! As a doctor of Naturopathic medicine it is my honour to take your child's care and health seriously. The following document is an agreement between the legal guardians of a pediatric patient and the doctor you see. This document states that you are entitled to understand any detail you wish about your child's health condition, treatment and diagnosis. It states that you are aware of the costs of naturopathic medicine (including late cancellation policies), the benefits, and potential risks and side effects. Your child's health is ultimately up to your family; therefore you also have the right to refuse any suggested treatment. We are in this together, so be sure to ask any questions you have, no matter what they are, at anytime and I will do my best to fulfil the meaning of doctor (docere) "To Teach".

STATEMENT OF ACKNOWLEDGEMENT

I, _____ The legal guardian of _____ as a patient of (Dr Name): _____ understand that my child is being treated under the pediatric practice philosophy and scope of naturopathic principles and practices, as regulated by the Canadian College of Naturopathic Physicians and the Health Professions Act of Canada. I will disclose all health concerns, conditions, medications and medical interventions, including supplements and over the counter drugs to my child's naturopathic doctor because I understand that care requires that I truthfully and completely disclose this information. I also will inform my child's naturopathic doctor if I am aware of any pre-existing medications or conditions, so that she can take proper precautions for treatment.

I am aware and understand that I am entitled to know about my child's diagnosis and treatment, including the costs, benefits, risks and potential side effects. I am entitled to know the consequences of not accepting treatment and of alternative treatments that may be applicable to my child. I am encouraged to take an active role in my child's care and ask any questions needed. I acknowledge that I have had the opportunity to discuss my child's proposed treatment with their practitioner and that she has answered all of my questions to the best of her ability. I understand that should parental access change, it is the parents' responsibility to update the clinic with the most up to date separation agreement, parenting agreement, or court order notarized by a lawyer outlining the change of rights. Without this documentation, it will be assumed that both guardians have equal access to parenting rights and responsibilities even without equal parenting time.

I understand that though naturopathic treatments are generally safe, there may be health risks associated with some treatments. This may include, but not limited to: aggravation of pre existing symptoms, allergic reactions to supplements, herbs or pharmaceuticals, and bruising or injury from acupuncture or intravenous therapies.

I understand that my child's naturopathic doctor is not able to guarantee results. I am aware that I am free to withdraw my consent and discontinue my child's treatment at anytime. I accept full responsibility for any fees incurred during care and treatment, including a 50% late cancellation fee if providing less than 24 hours notice for the cancellation of any appointments. I consent to email as a form of communication, and have provided the best email to do so with on my child's intake form. I acknowledge that some of the professionals that Naturopathic Doctors refer to are a part of unregulated professions in Canada, and that my ND will always disclose the nature of their referrals, the reason for their referral along with the benefits of seeing this practitioner (ie; Nutritionists). I consent to appropriate interoffice verbal communication amongst practitioners when my child's ND feels it is appropriate and relative to the outcome of my child's care, if my child is being cared for by more than one practitioner in the clinic. My child's primary ND will be the only practitioner that has access to their chart unless I request otherwise. I am aware that I am always at liberty to seek and/or continue my child's care from another healthcare provider.
